A REAL CHOICE...
for a CHANGE

Alistair McConnachie
Independent GREEN VOICE
candidate for **Glasgow South West**
is standing for these 5 Main Policies

**1- STOP UNSUSTAINABLE
IMMIGRATION and
BOGUS "ASYLUM SEEKING"**

Immigration into the UK has averaged 157,000 a year for the last 6 years, over and above those who leave, according to the *Office for National Statistics* (ONS Press Release 4-11-04) – that's the same as 3 towns the size of Ayr, every year. We all know these numbers are unsustainable environmentally and socially and mean more congestion, more

housing, more traffic, more pollution, more crowds and more queues. Yet Labour **don't** stop this, Lib Dems, SNP and SSP **won't** stop this – they want **even more** of it – and the Tories **can't** stop it because the European Union won't let them!

We say: Zero Net Immigration, which means No More Enter than Leave, Border Control Enforced, Illegals Caught and Deported, Employers who hire them Prosecuted and Punished, Abolition of the Automatic Right to Asylum, a Maximum of No More than 2,000 Asylees accepted for Settlement per year, and Failed "Asylum Seekers" Fast-Tracked Back.

2- SUPPORT OUR PENSIONERS and YOUNG FAMILIES

Pensioners and young families deserve a better deal. Under Labour, council tax has risen faster than pensions, and families struggle to pay their rents and mortgages.

We say: Increase the money pensioners receive by linking pensions to average earnings. We say: Family-friendly tax policies to affirm that motherhood is a national asset and the best form of childcare, and to ensure a family can raise children without both parents having to go "out to work".

3- LET'S GET OUT THE E.U.

The UK pays a staggering £36million a day to Brussels, as part of our EU membership (*United Kingdom Balance of Payments: The Pink Book 2004, Table 9.2*). That is an average of £55,700 per parliamentary constituency, per day. This is a massive amount of money, which should be paying for our pensioners, young families, students, public services, hospitals and schools right here in Glasgow South West, every day.

We say: Let's get out the EU, spend our money at home, and by our own good example, show the way to a new Europe built upon co-operation, democracy, national diversity and self-determination for all.

4- FIGHT POVERTY

Fight poverty by ending the absurd practice of government borrowing from the private banking system – and then asking us, the taxpayers, to pay it back!

We say: Establish a not-for-profit Public Investment Bank, which will create money – debt-free – to fund specific public projects, thus boosting public funds without any need to raise taxes.

5- NO FOREIGN WARS FOR FOREIGN CAUSES

We support our brave servicemen and women, whose purpose is the defence of our country, not fighting for foreign interests. **We say: Never Again.**
